Earl Meek, Executive Officer of the Junior College

Students May Go To College And Still Get Military Training

Students who enroll in the Junior College this fall will have the opportunity to receive military training while attending school, according to Earl Meek, executive officer of the college. Meek stated that the college has been approved by the War Relocation Authority to provide military training for students who are eligible for the War Relocation Authority's military training program. The program is designed to provide military training to students who are eligible for the War Relocation Authority's military training program. The program is designed to provide military training to students who are eligible for the War Relocation Authority's military training program.

FILM LIBRARY ADDS NEW FILMS IN WIDE
VARIETY OF SUBJECTS; ENJOYS POPULARITY

The Junior College Library, which has been popular since its inception, has added a new film to its collection. The film, "The Story of the Negro," is a historical picture which shows the life of the Negro people in America. It is a very interesting and educational film, and is sure to be popular with the students. The library also has a large collection of books and magazines, and is open to all students. The library is located in the building on the campus, and is open from 9 a. m. to 5 p. m. daily.

The Junior College Library is a very important part of the college. It provides a wide variety of subjects, and is very popular with the students. The library is open to all students, and is a place where they can find the books and magazines they need for their studies. The library is also a place where students can relax and enjoy the quiet atmosphere of the library.

Day In The Nursery

Mrs. Milton

Orientation Program
Planned

The Junior College of Tennessee is planning an orientation program for the new students. The program will be held during the first week of the school year, and will include a tour of the campus, a meeting with the faculty, and a presentation of the college's history and traditions. The program is designed to help the new students get acquainted with the college and its staff, and to provide them with the information they need to get started in their studies.

Students in Annual Husbandry Contest

The Junior College of Tennessee is holding an annual husbandry contest. The contest is open to all students, and is a competition in which they show their knowledge of animal husbandry. The contest is held during the first week of the school year, and is a very popular event. The students are judged on their knowledge of the different breeds of animals, and on their ability to care for them properly.

UTJC Library Ranks With the Best

For relaxation or studying, the Junior College Library will serve all your needs.

U. T. J. C. Students Are Found In Wide Variety Of
Activities During The Summer Months

Robert J. Wheeler, Lebanon, Tennessee, is working with the United States Military Academy at West Point, New York, on the first day of July. His address is Cadet Robert J. Wheeler, U. S. M. A., Company 4, West Point, New York.

James M. Ely, Unionville, Tennessee, will come back to U. T. J. C. this fall. He is now working with the Wilson Engineering Company in Shelbyville, Tennessee. He says that he is getting some practical engineering experience. His work is interesting and educational. His main job is drafting. The company lays electric light lines over a great part of the State of Tennessee.

Eugene Cates, Deane, Illinois, is employed for the summer at the Caterpillar Tractor Co. He will return to U. T. J. C. this fall.

Ann Carolyn Ralph, Covington, Tennessee, is employed by the Typing, Copying, and Printing Association. She says that the fun this year should be a new one. She is enjoying her summer vacation but is pretty anxious to get back to school this fall.

Earl Neely, Middleburg, Tennessee, is a counselor at Girl Scout Camp at Shelby Forest. She will be there five weeks. She will return home August 3. She plans to attend school here again this year.

Betty Jane Mills, Odon, Tennessee, is working as bookkeeper for a dentist in W. M. Patterson in Union City, Tennessee. She likes the work and plans to come back to U. T. J. C. this fall.

Bill Curtis, Jackson, Tennessee, is attending Lambuth College. He attends classes an average of 26 hours per week. He is taking Organic Chemistry.

Talton Turner is enjoying his vacation by helping his brother in the fruit business. Talton is from Humboldt, Tennessee.

Charles Flatt of Newbern is spending the summer in Pittsfield, Massachusetts, home of "Gunny Flatt." He says he has taken a hint from Red Skelton and is selling Fuller Brushes and very successfully too. But then what woman could resist such a salesman? Chuck reports that Lady is fine, too. The Flatts will be at Knoxville this fall.

Max Carrington is spending the summer at home in Huntingdon. He has been on the campus several times this summer, can't stay away from the library, it seems. On July 29 Max put on a piano program for the college broadcast of that date.

Summer Activities of
Library Personnel

Miss Mary Vick Burney, Librarian, attended the annual conference of the American Library Association at Atlantic City, June 13-18. The special duty which called her to this meeting was that of representing the 652 junior colleges of the country on a committee which is preparing a self-evaluating score card for the libraries of institutions of higher education.

En route home from New Jersey, Miss Burney visited Mrs. Edward D. Gregory in Bedford, Virginia. Mrs. Gregory, then Miss Eloise Berry, came to the Junior College with Miss Burney twenty-one years ago to serve as its first home economics teacher.

Miss Mary Ellis Hall, Assistant Librarian in charge of cataloging, has returned from a visit to her sister in Houston, Texas.

Miss Josephine Sullivan, Assistant Librarian in charge of readers service, is spending her vacation with her sister in Alexandria, Virginia. Immediately before leaving, Mr. Ed M. Chenette recorded an interview with Miss Sullivan for presentation over WENK. The topic discussed was our Junior College Library.

The Curricula In
Liberal Arts

The Junior College of Tennessee, Liberal Arts offer broad training in the fields of English, history, economics, biological and physical sciences. The courses in these fields are excellent preparation for many vocations and are the foundation courses for those who seek to become teachers, scientists, doctors, lawyers, dentists, pharmacists, and nurses.

Students who are still undecided as to the vocation they expect to follow are urged to enroll in the Liberal Arts Curriculum, as most of the courses in this curriculum can be used in meeting the requirements of other curricula to which the student may change at some later date.

Douglas Rainwater, Springfield, Tennessee, spent the first part of the summer at home on the farm working with his family. He is now engaged with the Springfield Roofing Company. He is coming back to the Junior College this fall.

Thomas Avery, Gates, Tennessee, has been working on the farm since the spring quarter. He will be coming back to the Junior College this fall.

Full Many A Flower . . .

By Josephine Sullivan
"Full many a flower is born to
blush unseen,
And waste its sweetness on the
desert air."
—Gray's Elegy

When Gray wrote the lines above in 1751 he probably had things like the University of Tennessee Junior College on his mind. All too frequently people flounder around searching for greener fields only to realize that the best to be had is right in their own back yard.

"Must Books"
Truly the University Library here on the campus offers vast opportunities which are comparable to those offered by some of the best libraries in the United States. Few people recognize this library's potentialities. Although the book collection is small in keeping with the size of the Junior College, it is extremely well-rounded and adequately developed. In expanding the collection here, emphasis has been stressed on quality rather than quantity. Recent graduates from library schools are impressed with the presence of the "must books." In checking the library's holdings against all the more important standard lists of books for junior colleges, one finds the library possesses a high percentage of these recommended volumes. The books chosen for this library are especially related to the program of work being undertaken in this particular institution.

16,000 Volumes
The library provides 16,000 volumes, a live and working book collection. In addition, the library subscribes to about 200 current magazines of general and special interest. There are the standard books of general reference and the special reference books in the specific fields of the curriculum, such as science, agriculture, and home economics. Then, too, the cultural and recreational reading for faculty and students is not neglected.

"The New Look"
Just outside the main reading room of the library is an inviting room recently equipped with the "latest word" in comfortable, attractive chairs and settee. Here is an ideal spot where students may study together or visit while enjoying a cigarette and waiting for classes.

The main reading room is unique with its color appeal, alluring bulletin boards, cheerful chairs and divans. Conveniently grouped around the room are the reference books, bound and current periodicals. Opening off the reading room are smaller rooms which contain the "open stacks," where students may browse and study or select books for borrowing.

Recent Additions
Now available in the library is the complete, up-to-date, authentic Hammond's New World Atlas. A valuable ready reference tool, this atlas includes the illustrated color gazetteer of the world. Students who have not yet used it should try it just for the pure fun of working with its unlimited possibilities.

Another recent publication received by the library is Dr. Cameron's Life Is For Living. Almost everyone learns "facts of life" nowadays but few learn the "arts of living." In this book, Dr. Cameron tells how one can be free from "pattern living."

For those readers who liked Bromfield's Pleasant Valley, a story of how a tract of land in Ohio was reclaimed and made to bloom, there is Malabar Farm. In this book the seedling of a field, the blooming of a hare, weedy hill becomes live, exciting drama. The Color of Life is an interesting new reference book for anyone concerned with color problems in art, designing, interior decorating, fashions, advertising, and drama.

Adding to the list of biographical and auto-biographical books that have resulted from the Roosevelt administration is Jim Farley's Story: The Roosevelt Years.

Brilliant parades, painted gaudy floats, balls, costumed maskers, catfaced crowds; they're all in Mardi Gras, a colorful new book just arrived in the library.

Fitting Yourself for Business is a fresh, vigorous, and wholly original attack on the problems of getting and holding a job. It includes job descriptions covering qualifications, duties, and promotional possibilities of the positions of general clerk, messenger, typist, filing clerk, etc.

One of the most exciting new books is The Story of Hypnotism, by Robert W. Marks. As entertaining as a seance and sound as science can make it, this lively book covers every aspect of hypnotism.

(Continued on Page 3)

Business Administration Course Great Success

A total of 114 Junior College students were enrolled in the Business Administration Department at the Junior College in the fall of 1947. Of this number 66 were sophomores and 48 were freshmen. The fact that West Tennessee students can now get the first two years of work in Business Administration at the Junior College does much to help the situation at the "parent" school where the College of Business has the largest enrollment in the University.

Most West Tennessee counties were represented in the total business administration enrollment for this section of 96 students. Weakley County led with 27 followed by Gibson with 23; Obion, 11; Deatur, 5; Crockett, Hardeman, and McNairy, 4 each; Dyer, 3; Carroll, Lauderdale, Tipton, and Shelby, 2 each; Benton, Chester, Heywood, Henry, Lake, and Madison, one each. Middle Tennessee furnished 10 students—2 each from Hickman and Rutherford counties, and one each from Bedford, Franklin, Giles, Marshall, Robertson, and Wilson counties.

East Tennessee furnished 3 students—one each from Campbell, Johnson, and Sullivan counties. Six students were from outside the state.

Business Administration Offers New Course

In an effort to extend the services of the Junior College to a larger degree, the Business Administration Department has obtained permission from the University of Tennessee at Knoxville to offer a new course this fall in Office Administration 311-2-3. This is a college course in Gregg shorthand but requires no previous shorthand training or experience.

Mr. Grover says that the new course is being added to fill an expressed need from students as well as local residents. Since this is a third year course at the University of Tennessee, it will only be possible to offer it by extension at the Junior College. The course will be taught here, but credit will be given by the University at Knoxville and not by the Junior College.

The course will be open to sophomores enrolled at the Junior College. Local people desiring to enroll should contact Jasper Grover, head of the Department of Business Administration.

Billie Roberson, West Helena, Arkansas, is employed by the Pekin Wood Products Company as lumber checker. He plans to come back to the Junior College this fall.

Typing Contest Held On U. T. J. C. Campus

April 27, 1948, was an important day in the history of the Business Administration Department at the Junior College. On that day we were hosts to a large group of high school students from various high schools in West Tennessee. These students and several typing instructors gathered at the Junior College campus to take part in a West Tennessee Regional Typing Contest.

Early in the morning these young men and women checked in at Temporary Hall. Many brought their own typewriters and immediately started "warming them up." There was a look of determination on their faces too, for what high school student could not use the ten-dollar cash prize offered to the winner in both the beginning and second year classes? The Junior College Book Store had donated \$50 to be distributed to the winners. The Junior College was to present Certificates of Merit to all who successfully completed the contest.

After a few words of welcome from Mr. Meek and Mr. Grover, the contest was on with the advanced students taking part first. The beginning students made a direct tour of the campus while the advanced students were typing and then returned to the typing room to try their skill on the machines.

The following contestants shared in the distribution of the cash prizes:

Advanced Students

Wilma McElroy, Ridgely; Ross DePriest, Tiptonville; Rovena Lee, Ridgely; Dorothy Finley, McKenzie; Peggy Mitchum, McKenzie; Wanda Lamb, Dresden; Joy Tillman, Greenfield; Jane Allen, Mason Hall; James Butts, Dresden.

Beginning Students

Robbie McPeak, Dresden; Ella Mae Clift, Newbern; Annelie Headen, McKenzie; Willa Dean Lovings, Ridgely; Joanne Griggs, Mason Hall; Elizabeth Taylor, Haywood County; Louise Cunningham, Troy; Betty Lashlee, Dresden; Betty Forrester, Troy.

The contest itself closed at noon but the day's activities were not over. At 1 o'clock the contestants were guests of the Junior College at an assembly program in the gymnasium. They will remember for a long time the antics of some of the college students who were hypnotized during the program.

Perhaps the best part of the contest was the office machine display presented by The Royal Typewriter Agency of Mayfield, Kentucky; the Underwood Agency of Jackson, Tennessee; and Wight Office Machine Company of Jackson, Tennessee. Representatives of these companies were enthusiastic in demonstrating their equipment, and all are looking forward to repeating the performance next year. The contestants particularly enjoyed trying out the Underwood Electric typewriter.

Plans are being made to hold a similar contest next spring, and it is hoped that even more high school students will be able to take part.

Miss Joyce Claytor at the mimeograph. The operation of this machine is taught in the Business Administration Department.

Participants in the West Tennessee Regional Typing Contest held on the campus during the spring quarter.

Summers, Guilford F. Thornton, Leon Tucker, John M. Vowell, Walter D. Ward, and Neil White.

Organic Chemistry Offered

For the first time in its history, the University of Tennessee Junior College now offers two full years of work in the predoctoral and premedical curricula, thus making it possible for a student to go directly from the Junior College to medical or dental school.

The two full years of premed and predefit were completed by the addition of organic chemistry to the curriculum. This course, Chemistry 311-312-313, will be taught by Mr. Campbell, and gives 4 hours of credit each quarter. The offerings in physical science are

REED—DORAN

On June 2, Miss Shirley Yates, freshman in Business Administration, became the bride of Mr. James Reed Doran, Instructor in Chemistry. Mr. and Mrs. Doran are living in the apartment of Mr. and Mrs. Henson this summer. Mr. Doran taught Chemistry 111 the first summer term and is teaching Chemistry 112 this term.

greatly enhanced by the addition of this course.

Of course the general courses in chemistry and physics will continue to be offered with more and better laboratory space and equipment.

Miss E. Mable Koontz, instructor of English, is spending her vacation at her home in High Point, North Carolina. This fall Miss Koontz plans to resume her graduate work at Columbia University, New York.

Mr. Allen Brown, also of the English Department, returned to Virginia for a part of his vacation. For several weeks, he plans to attend the Massena Netta Presbyterian Camp. This fall he will teach three freshmen and two sophomore English classes at Memphis State.

A Room With a View

The spacious living room of Reed Hall.

With Maestro Billy Duck at the piano, Reed Hall is ready for music for thought.

Dear Mary Ann,

Your last letter came as a surprise to me. I didn't realize you were seriously considering going to work instead of coming to college. I suppose we will not be rooming together as we had planned. I honestly believe you would change your mind if you had shared all my last year's experiences here at the college, and especially in the dormitory.

I shall never forget my first night in the dorm. Goah! I was home-sick. I knew not a person. I had just begun feeling sorry for myself when suddenly the door banged open and in popped a head. After greeting me with "Hi! I'm Jane E—", she invited me to join their gang in Room 10. As I entered the room I saw several smiling faces amid a clutter of boxes, suitcases, clothes, etc. Crash! Down came a girl, seemingly from nowhere (she had been hanging curtains), and landed on top of three or four others. This brought forth a burst of laughter from all. Before I knew it my homesickness had vanished and I had joined in the fun.

Then came the first dance. The dorm was full of hurried activities in preparation for the big event. Everyone was fluttering around pressing dresses, washing and rolling hair, polishing nails, etc., in an effort to look her best for her date. The greatest excitement came with the arrival of corsages. The halls were filled with sounds of "Oh's" and "Ah's" as each girl pinned on her flowers. After the dance we all floated into one room to relive the exciting evening before "lights out."

One of the highlights of the year for the girls in the dorm was our Christmas party given by our "other Mother." We all gathered in the living room, turned the lights down low, and sang Christmas carols. This was followed by a very impressive program. Santa Claus paid us a visit and found presents for each of us. Refreshments put the finishing touch to an enjoyable evening for everyone.

Mary Ann, I know you would just love the rooms here in the dorm. They are designed to accommodate two girls. Most of the rooms have two roomy closets twin beds, a large desk, a dresser and a bookcase. There are also two study chairs and a large lounge chair covered in bright colored leather. These bright colors give the room a gay atmosphere and feeling of warmth, especially on cold winter days. The girls usually furnish their rooms with matching bedspreads and draperies which add still more color to the rooms. We could fix our room up so cute if only you would change your mind and come to college this fall.

Oh! Yes! The girls gave me a surprise birthday party the other night.

After seeing a delightful movie at the local "cinema" I returned to the dorm to find the girls gathered in my room. As I opened the door, I saw by the faint candle light, the smiling faces of the girls gathered around a table centered with a beautiful cake gayly decorated with pink candles. They greeted me by the old custom of singing "happy birthday." Tears of joy filled my eyes as I thought of how sweet it was of the girls to remember me on my birthday.

Think it over, Mary Ann. There are still a few rooms vacant in each of the big dorms here at the college. Talk to Doris and the others and see if they won't come too.

Love,
Joyce

Faculty News Notes

Miss Emily Dee Marshall, instructor in the Business Administration Department, who hails from Clarksville, Tennessee, won another title on July 24 when she became the bride of Mr. Robert F. Jones, instructor of Agricultural Engineering, from Blythe, Ga. This fall Mr. Jones will teach in the New York State Agricultural and Technical Institution at Alfred University, Alfred, New York. Mrs. Jones will "keep house for Bob."

Mr. Horace Smith, instructor of Horticulture, is returning to Cornersville, Tenn., for the rest of the summer. This fall he will go to Purdue University on a "Fellowship," that is, he will teach part time and go to school part time.

Miss Willie Ruth Cleveland, Physical Education Director, from Jackson, Mississippi, will be married to Van Hugh Cunningham of August 24. They will live in Memphis. Mr. Cunningham is enrolled in Memphis State.

Mr. Virgil Cole, instructor in the science department, has resigned to accept a position in the Memphis schools. Mr. Cole and family moved to Memphis July 17.

Mr. Lloyd King, instructor in the Science Department, is attending Peabody and Vanderbilt this summer. He is taking 12 hours of chemistry and 4 hours of administration. He is also doing some teaching. His work is keeping him "too busy to eat." Mrs. King is taking work in library science.

Mr. Arthur Hartung, instructor in the psychology department and veterans' advisor, is attending Pennsylvania State College. He is taking doctorate work in administration and guidance. Mr. Hartung and family are enjoying their summer in Pennsylvania, climate being so cool they use blankets every night. Mr. Hartung says, "I am working like a dog."

Miss E. Mable Koontz, instructor of English, is spending her vacation at her home in High Point, North Carolina. This fall Miss Koontz plans to resume her graduate work at Columbia University, New York.

Mr. Allen Brown, also of the English Department, returned to Virginia for a part of his vacation. For several weeks, he plans to attend the Massena Netta Presbyterian Camp. This fall he will teach three freshmen and two sophomore English classes at Memphis State.

Mr. James L. Harbison, of the science department, and family are going to visit relatives and friends in southern and northern Illinois this summer.

Miss Josephine Sullivan, assistant librarian, is spending her vacation visiting relatives and friends in Alexandria, Virginia, and Washington, D. C.

Mr. J. C. Henson, Assistant Professor of Physical Education, is attending the University of Alabama, Tuscaloosa, Alabama. He states, "I have really been on the go, that is, so far as work is concerned. I am taking anatomy and physiology this summer along with two professional physical education courses. Too, I am supposed to finish my thesis. It does not appear as if I will get through with all of it. It is possible but not probable. The heat has been terrific and we have had two record-setting days so far this week alone."

Maurice Shelton, instructor in agriculture, is attending the Graduate School at Texas A & M College. He will remain there until the first of September. His school work is directed toward an advanced degree in Animal Husbandry. He says that he likes the school, the people, and the state of Texas fine, but the temperature is not very conducive to too hard work at this season of the year.

A. Paul Wishart, instructor in geology and geography, is attending McGill University Summer School, St. Lawrence, Quebec. "We have found everyone to be cordial and interesting. I have a very outstanding group of teachers, most of whom are from England. In a course on 'Polar Problems,' there are about five teachers participating—including three very famous arctic and antarctic explorers. They are Dr. Stefansson, Dr. Odel, Sir Hubert Wilkins, and also two army officers. We had a delightful and somewhat vigorous journey of 1,554 miles with no flat tires or very major car trouble. Points we visited included Indianapolis, Toledo, Detroit (Ford Plant, etc.), Windsor, Ontario, London, Hamilton, Niagara Falls, Canada, U. S. Toronto, Ottawa, the capital, Montreal and then to our summer quarters at Stanstead. We have been down into Vermont, and I have been on one nice field trip and hope to take many more to the great Thetford mines, Mt. Washington, Quebec City, etc. We are all in the best of health and happiness," he writes.

UTJC Library - - -

(Continued from Page 2)
Visit Your Library

How can students and faculty make the most of the vast facilities of the library? By frequent visits to the library, watching for interesting bulletin boards, and announcements, and using the card catalog. The buried treasure is there! The librarians are always ready to help! Won't you explore your University of Tennessee Junior College Library?

Educational Features At U. T. J. C.

By Roy Moody

There are a great number of facilities which I enjoy at the University of Tennessee Junior College. I shall attempt to enumerate and comment on a few of them.

First, I think that the Junior College has an excellent library system. There are several newspapers available there in which one may gain a knowledge of daily events that are both local and international. For anyone who is interested in agriculture or home economics, there is an excellent assortment of books and periodicals on those subjects. The system on reserve books, which the library operates, tends to give all of us a chance in securing certain material and prevents a monopoly by a few. There are several sets of reference books located in the library. Here one may obtain information on a great many different subjects. Too, the college library is expertly managed by a staff of well-trained attendants. I think that this fact makes any library an outstanding and valuable asset to an institution. I visit the library quite often, when I have time available, and sincerely enjoy the many opportunities which it offers.

Second, the University of Tennessee Junior College offers good swimming facilities for the faculty and the student body. The swimming pool is the place that I like the best when referring to physical recreation. The pool, which is the only one in the area surrounding Martin, is available some of the time to local residents. I think that the swimming pool should remain open much more of the time than it now does. In my opinion, it should be available to the student body at least two hours each day. More students would have a chance to go swimming then. The above statements do not refer to the compulsory physical education program.

Third, the bookstore, which is under the supervision of Mr. Rus-

sell Duncan, is one of the places which I like to patronize on the campus. It is a place where one may purchase articles ranging from books to soft drinks and from pencils to ice cream. I usually stop by the bookstore between classes to get a cold drink or to see if I have any mail. While there, I also meet many of my friends.

Some of the other facilities for recreation and exercise are dances, tennis, ball, assembly programs, etc., and they prove to be very interesting. I could name countless more things which I enjoy at the University of Tennessee Junior College, but they are too numerous to attempt to mention or discuss in a short article.

The following is a general summary of my views on the various facilities available to the student at the University of Tennessee Junior College. I think that our system is above the average for colleges of this type; however, there is always room for improvement, and I feel confident that the students of this junior college will prove to be a valuable aid in this matter.

Football Camp Opens Sept. 15

By Harry Rhodes

Now that fall is creeping upon us once more, football again becomes the topic of conversation. Football is exactly what anyone can find at the University of Tennessee Junior College—good clean football played with an eagerness of spirit that is surpassed by no other school.

On September 15th the football training camp will be open to all high school graduates who wish to try out for the college team. All candidates are given a week's room and board only. This gives each candidate a free opportunity to cast his bid for a position with the Junior Vols.

The first thing that a candidate will do when he reports to the training camp will be to meet Head Coach J. C. Henson, a former star player at Mississippi State, and a very capable man. The candidate will meet Assistant Coach Vincent Vaughan also, who is the tutor to the backfield and is a competent man for the job. Each man will find a friend in these two men off or on the field.

Next, the candidate will be issued his equipment. He will find this equipment for his protection the best it is possible to obtain. He will also find that the college football field is one of the best in this part of the country. The field is well lighted and sodded and the year-around attention makes it one of the best playing fields.

Some of the prospects that reported for spring training, and will be back this coming season are: quarterback Captain Harold Johnson, and Co-Captain Joe Black, who have already seen one season with the Vols; tackle, Jerry Smith, a last season letterman; Roy Gayden, Charles Biven, and Robert Holman, all flashy tailbacks, will cast their bids. Billy Brooks will try his skill at end. About sixty men are expected to report this fall.

One thing that the coaches believe is that a position on the team is always won in competition. The man who is most able to fill the position is the man who gets to play. Every man that finishes the season with the Junior Vols is awarded a "T" which is the distinguished recognition of a "fighting Jr. Vol."

One will find that football at the Junior College is much fun, for on the football field many new friends are made. In addition, the out-of-town games are looked forward to with much eagerness. The choosing and crowning of the football queen is always a delight ceremony.

The "Jr. Vols" are a team made up of men with average ability and with sportsman ship. Every man who will come out and work to show that he wants to play football has an equal chance to make the team.

Joe Black, Bolivar, is co-captain for the coming season.

Harold Johnson, Martin, is captain of the Junior Vols' football

SPORTS BRIEFS

Vols' 1948 Football Schedule

October 1 Southeast Missouri Teachers 'B', Here.

October 8—Murray State "B", There.

October 15 Bethel College, Here.

October 22 Lambuth College, There.

October 29 Cumberland, Here.

November 6—Athens College, There.

November 12 Austin Peay, Here.

November 19 Open, There.

Newcomers to the 1948 schedule are Cumberland College and Athens College while Northeast Louisiana is not scheduled this year.

Last year's schedule and record were:

Jr. Vols	13	S. E. Mo. B	0
Jr. Vols	7	Murray St. B	40
Jr. Vols	13	Bethel	6
Jr. Vols	16	Lambuth	0
Jr. Vols	0	N. E. La	33
Jr. Vols	7	Austin Peay	20
Jr. Vols	6	Murray St. B	7

Johnson And Black To Head Jr. Vols '48 Season

Harold Johnson of Martin and Joe Black of Bolivar have been elected co-captains of the football squad. Johnson, who plays quarterback, is six feet tall and weighs 182. He is a graduate of Martin High School, a sophomore this fall, and is majoring in Business Administration. Black, despite his height and weight, he is 5 feet 8 and weighs 175, showed himself last fall to be a hard-driving fullback. He played his high-school football at Bolivar, is also a sophomore, and is taking a pre-law course. They should lead the squad to a highly successful season.

Mr. Ed M. Chenette, instructor in English, was operated on for appendicitis July 20, at the Weakley County Hospital, Martin, Tennessee. He is coming along nicely and was taken home from the hospital July 21. We wish him a speedy recovery and hope that we will soon have him back with us.

Softball Title Won By Termites

The only organized sport of the summer session was the 5-team softball league which began play June 18. Three games weekly were played in a round-robin between teams representing the Trailer Camp, Upper and Lower Dorms, Termites (students living in privates homes), and the Faculty.

The championship was won by the Termites with a 4 and 0 record, the runner-up spot being a tie between the Upper and Lower Dorms with 2 and 2 records. Among the highlights of the season were O'Guinn's 4-0 pitching record; Jones' (Lower Dorm) two successive homers, only times at bat in the game he played; Mr. Stanford's hitting for the cycle (homer, triple, double, and single) against the Trailer Camp; and W. O. Patterson's (Lower Dorm) total of 5 home runs.

The complete schedule and final standings are as follows:

June 18—Top Dorm, 16; Faculty, 9. Winning pitcher, Dodson; Loser, Sadler.

June 22—Termites, 14; Lower Dorm, 9. Winning pitcher, O'Guinn; Loser, Patterson.

June 23—Trailer Camp, 9; Lower Dorm, 3. Winning pitcher, Cole; Loser, Patterson.

June 24—Termites, 14; Top Dorm, 6. Winning pitcher, O'Guinn; Loser, Dodson.

June 29—Termites, 14; Faculty, 10. Winning pitcher, O'Guinn; Loser, Sadler.

June 30—Top Dorm, 16; Trailer Camp, 5. Winning pitcher, Dodson; Loser, Cole.

July 1—Lower Dorm, 13; Top Dorm, 5.

July 6—Faculty, 14; Trailer Camp, 12. Winning pitcher, Sadler; Loser, Cole.

July 7—Termites, 16; Trailer Camp, 7. Winning pitcher, O'Guinn; Loser, Cole.

July 8—Lower Dorm, 7; Faculty, 6. Winning pitcher, Patterson; Loser, Sadler.

FINAL STANDINGS

Termites	4	0	1.000
Top Dorm	2	2	.500
Lower Dorm	2	2	.500
Trailer Camp	1	3	.250
Faculty	1	3	.250

Club Activities in The Departments Of History And English

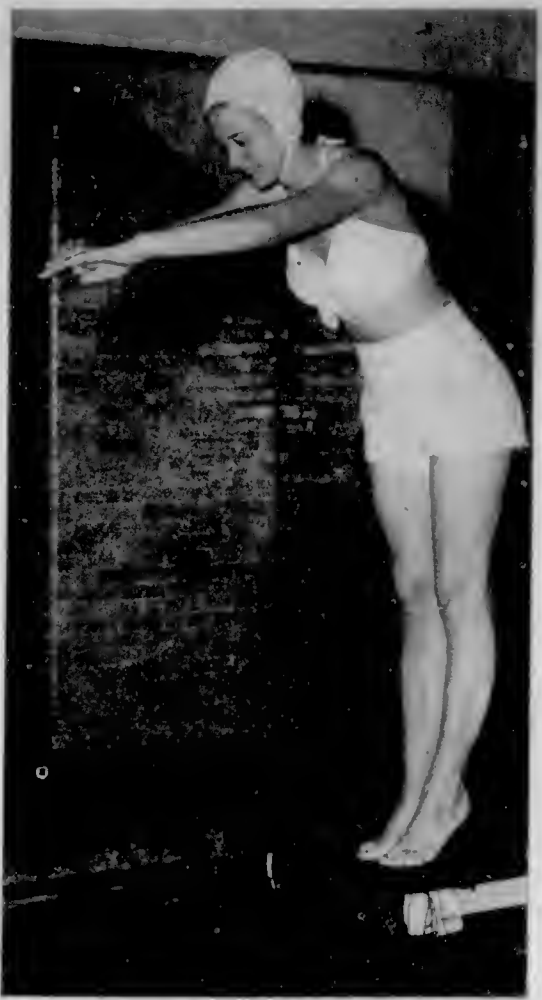

Are you interested in a college where there are many activities in the field of history, political science, and English? If you are, then there is no better place to go to college than at the University of Tennessee Junior College.

One of the most active clubs on our college campus is the Forum Club, which is known all over West Tennessee and has been recognized as one of the foremost extracurricular organizations among all the Junior Colleges in our nation. This club is open for membership to any student who is interested in speech, dramatics, music, or radio, and who can maintain grades of at least C or better. The Forum Club presents programs of speeches, readings, musical numbers, plays, panel and group discussions before high schools and civic organizations throughout our state. Trips are taken; banquets are held; medals are awarded; and, all in all, most of the students on our campus have a profound respect for this club. Last year, 15 programs were given before such high schools as Martin, Dresden, Bradford, Milan, Troy, Tiptonville, Union City, Bolivar, and Savannah. Some students appeared in a group discussion before the Martin Rotary Club and others conducted a church service at the Martin Methodist Church. We have in the past produced as many as 51 programs in a single year.

And, oh yes, let's not forget that the U.T.J.C. has a radio studio. We broadcast twice a week through WENK at Union City.

Mr. Allen, of the Department of History, sponsors the program; faculty members from every department help in their conducting; and students, townspeople, and friends of the college appear over the air at frequent intervals. Your chance for doing some broadcasting is very good here; when you come to us, tell Mr. Allen of your talents and he will be glad to let you use them.

Another extra-curricular activity of importance in this day and time is the International Relations Club, which is sponsored by Mr. Vaughan, Mr. H. B. Smith, and Mr. D. C. Allen. Students who are interested in the International events can participate in the study and discussions of problems pertaining to our friends across the oceans. We hope the interest in this club will be exceedingly high during 1948-49.

Mrs. John F. Pate, Martin, cools off in the delightful swimming pool at the college gymnasium. Swimming is offered during the spring quarter of physical education.

Hong Kong Student . . .

(Continued from Page 1)

department. This type of special examination had been provided before the second world war. But there are quite a number of students against this type of system, so I could not give my adjustment as to whether or not this type of examination system will still be carried on in the near future; that I do not know.

I finished my high school in December, 1946, in Singapore. At that time, I planned to further my education in one of the universities in China. Before I went back to Hong Kong, I took a full trip all over Malaya and I did go to visit all the rubber factories, mines, fruits, plantations, and other historical places. Besides, I also took my trip over Indo China.

In March, 1947, I went to Hong Kong to visit my relatives and friends. After a short stay in Hong Kong, I told my parents that I wished to get into the Linan University in China, but my father disagreed with my opinion. He wanted me to have my schooling overseas. My father's idea which suddenly stimulated my thought caused me to decide to continue my schooling in the United States.

After my decision to attend school in the U. S. A. I tried my best, by all means, to locate the school addresses. Finally my friend brought me a LOOK Magazine which had written many names and addresses of all the good schools, colleges, and universities in the United States. The next day I sent out twenty letters asking for scholarships. I believe that I sent five letters to the high schools, and five to the colleges, and ten letters for the universities. As time goes on I gradually received all the information from different parts of the States. I found that some universities could not accept me because they had no vacancy, and some gave their reason that after the second world war many soldiers were going back to school, etc. Of all the 20 letters, I was only accepted into the Lawrenceville High School, New Jersey, Lama College, Texas; University of Mississippi, Mississippi State, and the University of Tennessee Junior College, Martin, Tennessee.

I chose the U. T. Junior College because it is located at a small town, and the expenses were much less than other places. Besides my father said that the U. T. Junior College is a branch of University of Tennessee, Knoxville, and so I could stay at one school until I got my degree.

I have been in school at Martin for about nine months, and I find that my English has improved very quickly. It was due to the fact that I had a good circumstance in staying together with you people and every day whenever I went to class or went to buy things, I was compelled to speak English. Besides, I found that the people in the small town are always friendly to each other. If you are brave enough to open your mouth and talk with the town people; I believe, you will naturally gain a great deal of English knowledge from them. And I will advise those foreigners who wish to strengthen his or her English, it is better to go to a small town like Martin. There is another reason that I loved Martin, because it is located at a small town and it has no other luxury amusement; therefore, it is an excellent place (or very suitable place) for us to settle our minds in study.

Sai-Weng Lee

Ed. Note. Sai-Weng Lee is now enrolled in the University of Tennessee, Knoxville.

Assembly Schedule For 1948-1949

The Student Assemblies Committee announces that the following assembly programs have already been scheduled for 1947-49:

October 28, Tuesday, 1:00 p.m. Sam Grathwell, "Story of the 'G-Msn'."

November 30, Tuesday, 1:00 p.m. King Male Quartet.

January 11, Tuesday, 1:00 p.m. Marionette.

February 15, Tuesday, 1:00 p.m. Ventriloquist.

March 21, Monday, 1:00 p.m. Jack Raymon, "Reptiles of America" (Tentative).

April 26, Tuesday 1:00 p.m. Messick Musical Bells.

There will be other interesting and instructive programs throughout the year.

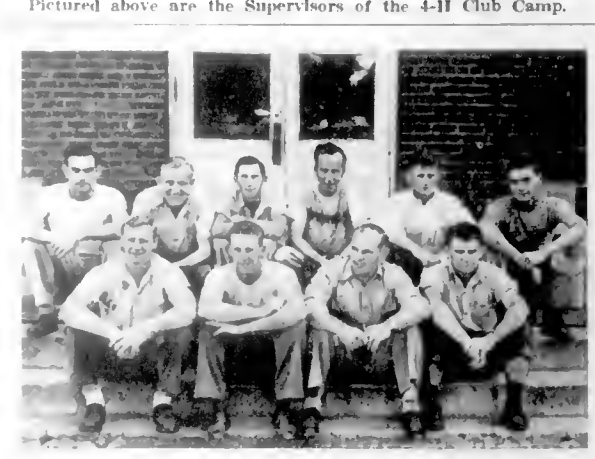

Mr. Glen Sadler is directing the Methodist Church Choir this summer while Mr. Henson is on his vacation.

4-H Clubs Have Successful Meeting

On Saturday, July 17, the Annual West Tennessee 4-H Club Camp held on the Junior College Campus came to a close. The camp was opened Monday June 28, running for four consecutive weeks. All camps were under the supervision of Mr. Judd Brooks and Miss Mildred Jacobs, District Agents. The counties attending the first week were Crockett, Benton, Gibson, Haywood, Lauderdale, and Weakley. The second week of camp was composed of Carroll, Decatur, Hardeman, Hardin, Henderson, Lake, Obion and McNairy Counties. The third week's attendance was made up of Webster, Fayette, Henry, Madison and Tipton counties. The fourth and final week was made up of the older boys and girls from all the counties of West Tennessee. Approximately 375 club members, leaders, and workers attended each camp.

The mornings of each week were spent in various forms of instruction, including field trips, farm tours, and class-room lectures. The Junior College faculty assisted the camp directors in these periods of instruction. The afternoons were spent in handicraft, swimming, softball, and other forms of recreation.

Immediately after supper each evening, Vesper services were conducted on the campus. This was followed by movies and folk games played under the lights. Friday

Waiting for classes to change.

nights were devoted to talent and amateur programs.

The consensus of opinion among those connected with the camps was that this year's camps were the best we have ever had. Everything was well-organized, and the boys and girls seemed to enjoy their work to the fullest.

The work of the college in relation to the camp's activities was carried on by a committee composed of Mr. Knepp, Mr. Duncan, Mr. Stanford, Mr. Horton, Mr. McMahan, Miss Hawkins, Mr. Alexander, Miscellaneous—Mr. Stanford, Mr. Grover, Mr. Harbison. Much of the success of the summer camp must be credited to the conscientious work of these members of the Junior College faculty.

Knepp, Mr. Duncan, Mr. Stanford, Miss Hawkins; Housing—Mr. Duncan, Mr. Vaughan, Miss Hawkins, Mrs. Thomas, Mrs. Freeman; Library—Miss Hanlin, Miss Burney; Dining Facilities—Mr. Knepp, Mr. H. B. Smith, Mrs. Milton; Construction—Mr. McMahan, Mr. Lusk, Mr. Long; Athletic—Mr. Vaughan, Miss Cleveland, Mr. Campbell, Mr. Mitchell; Instruction—Mr. Horton, Mr. McMahan, Miss Hawkins, Mr. Alexander; Miscellaneous—Mr. Stanford, Mr. Grover, Mr. Harbison. Much of the success of the summer camp must be credited to the conscientious work of these members of the Junior College faculty.

Registrar Relates Duties of Office

By Mrs. Myrtle H. Phillips

The chief duty of the Registrar is to see that students are enrolled in the classes they need and that their scholastic records are kept in good order at all times.

To be admitted to college, a student must present at least fifteen approved units from a standard high school, a unit being a year's work in a high school subject. The Registrar is glad to give full details about enrollment to prospective students.

The two most common deficiencies are in mathematics and the academic (college preparatory) subjects. Two units in mathematics are required. After conferring with the registrar, usually any deficiency can be easily made up by preparing to take entrance examinations just prior to the opening of the quarter. Veterans are permitted to enroll and make up deficiencies that are vital afterward.

Constant check is kept on the student by the Registrar's Office, and all his grades and reports on his standing are kept there. The honor rolls are issued every quarter, and those winning highest scholastic honors are determined by the office.

Superintendent Of Physical Plant

Mr. Wade Freeman of Martin assumes immediately his duties as superintendent of physical plant, allowing Mr. Knepp to resume full-time teaching in the Agricultural Department. The appointment of Mr. Freeman demonstrates the rapid development of the Junior College, now reaching the point where a full-time person is needed to handle the many problems and duties in maintaining the physical plant of the college.

Mr. Freeman attended the Junior College in 1931-33, receiving among other honors the Kruesel Prize. He took further work at Michigan State College. For several years he taught, serving three years as Supervisor of the NYA Trade School at Dresden. From 1943 to 1945 he was with the Ordnance Department, 4th Service Command. Since the war, Mr. Freeman has operated a machine shop in Martin.

Mr. Freeman has been delayed in assuming his duties because of an accident in which he was burned about the face and arms. He has recovered sufficiently to begin his work. His office is now being set up in the new addition to the heating plant.
